

Manual Reporting for ICIS Tracking

Incident Received Date: 06/30/15

Incident Type (chose one): Citizen Tip/Complaint

Required notification

Incident Description:

Citizen reports that the wastewater treatment system serving the Rockaway Beach subdivision has been emitting an extremely terrible odor. The caller reports that a pamphlet has been circulated throughout the subdivision stating that the sludge has not been removed from the system since October 2014. The caller reports that the system is full and the waste is not being treated properly.
